AI BASED CCTV

Sai Educare prioritizes security and the integrity of our assessment processes with a zero-tolerance policy towards compromise. To ensure utmost vigilance at our examination centers, we offer a choice between offline or online CCTV surveillance solutions. Additionally, we provide comprehensive recording capabilities to monitor the entire examination procedure.

Our commitment to maintaining the highest standards includes sourcing CCTV surveillance systems from top suppliers in India, ensuring state-of-the-art security measures. The implementation of CCTV cameras has significantly reduced instances of malpractice, underscoring their effectiveness in safeguarding the examination environment.

Recognizing the diverse needs of our clients, the critical nature of examinations, and budget considerations, Sai Educare now introduces AI-based CCTV solutions. This advanced option enhances our surveillance capabilities by integrating artificial intelligence to further bolster security measures.

By leveraging AI technology, Sai Educare continues to guarantee the integrity of our assessment processes while delivering exceptional service quality to our valued customers.
