CCTV

Surveillance Management

At Sai Educare, we uphold a zero-tolerance policy regarding security and the quality of our assessment processes. Ensuring proper security at examination centers is our foremost priority. To achieve this, we offer CCTV surveillance during examinations at our venues. Clients can choose between offline or online CCTV surveillance options. Additionally, we provide the capability to record the entire examination process.

Sai Educare guarantees the integrity of the assessment process and delivers high-quality services to our customers. We source CCTV surveillance devices from leading suppliers in India to ensure the highest level of security with state-of-the-art systems. The presence of CCTV cameras at our centers has proven effective in significantly reducing instances of malpractice.

Based on varying client needs, the criticality of the examination, and budget considerations, Sai Educare presents two distinct options

- 1. Office Surveillance & Recording*
- 2. Live Streaming with Recording*
